# HACKNEY-PARTS MANUAL

Dear Customer:

This manual, designed specifically for you, contains descriptions and numbers of parts for Hackney, Mickey, Hesse, and Centennial trucks. We encourage you to use it for ordering.

This manual has six main sections: **Parts Common to Bodies and Trailers, Exterior and Interior Parts for Bodies and Trailers, Trailer Parts, Optional Equipment, Miscellaneous Items, and Competitor Parts.** Within these sections are subdivisions with pictures, drawings and parts lists to aid you in identifying the item you need. We also provide measuring instructions when measurements are necessary and a list of raw material numbers for ordering large pieces and cutting them to size.

The Table of Contents will help you locate parts by identifying subdivisions within the manual. An alphabetical index of parts appears at the back for cross-reference purposes.

We hope you find this manual helpful. If you desire to order by fax a form is provided in the back. You may of course call in your order or e-mail it.

**For instructions for safe installation of parts, consult the Hackney Service Manual. If you do not have a Service Manual, you should order one with your parts.**

## **To Order by Fax**

Print one of the forms provided. Fill in the information requested, and fax to Parts Dept. (252) 975-8368

## **To Order On Line**

Log on to web page [www.hackneyparts.com](http://www.hackneyparts.com) then follow the instructions.

## **To Order by Phone**

Call our resident experts toll free direct at (877) 238-7278. (877) BEV-PARTS

**NOTE-** Slats with a 5/8" pattern were used until 1992. Slats with a 3/8" pattern were used from 1992-1996 and slats with a 7/8" pattern were from 1996 to current.

**NOTE-** There is exceptions to the slat pattern within the years, especially in change over years. Please measure the slats.

**NOTE-** None of these slats are stock.

**NOTE-** The finger slot is our new current standard. If you have a trailer or body that does not have the finger slot and you would like to have them, next measure the slats you have, then order one finger slot and one 2" slat to replace a 5" slat already in your door.

**NOTE-** See picture to left for finger slot.
